

Current Status of Carbon Credits for Texas Landowners

Friday, June 26, 2009

NOON to 1:00 PM (Central Standard Time)

Presented by

James Houser

James Houser, Consulting Foresters, LLC

This special 60-minute segment will provide an update carbon trade for forest landowners in Texas, including the latest developments and the current conditions of the markets, and how a forest landowner can determine if their forestlands are a good candidate for the program.

There will be a brief "Orientation to Elluminate" starting at 11:50am cst.

Web Access Instructions

1. On the day of the webinar, go to: <http://forestrywebinar.net> about **10-15** minutes prior to the start of the session,
2. Follow the directions to apply for SAF Continuing Education Units,
3. Click on the particular webinar link,
4. Enter your FULL name to login (*no password is needed*),
5. The webinar will then load on your computer, and
6. We will send you a pdf file of the speaker's presentation when you join the session. Please make sure you select to download and save the file.

First Time Webinar Attendees

This Webinar will use software called **Elluminate**.

If you have not yet participated in a Elluminate webinar then please go to www.elluminate.com/support for instruction on setting up your computer. You should do this at least 24 hours in advance of a live webinar in case you have any problems that need to be resolved. If you have any hardware or software issues you can call Elluminate Support at 1-866-388-8674.

You will be prompted to download some software which may take anywhere from 2 to 20 minutes depending upon your Internet connection speed. The steps you will complete are as follows:

1. Check that you have Java installed. If you do not the screen will tell you how to download the latest version of Java.
2. Make sure your speakers and/or microphone are set up correctly. You will need to enter the "Configuration Room" in order to test your audio setup.
3. Do the "Recorded Introduction" to get an overview of how to use Elluminate as a participant. This takes about 5-10 minutes to complete.

Particular use of the Elluminate software will be addressed at the beginning of the session.

For those with firewall blocking, getting your IT support to test it the day prior to the event might be necessary (this is rare).
